The popularity of ETF's and options has exploded. For instance GLD and SLV along with numerous vehicles and markets from different parts of the globe is allowing Investors to adjust risk and leverage on a variety of markets and trading platforms. While at the same time, for example margins on Gold and Silver futures have exploded. In order to reach as wider scope of Traders we will offer more precious metal trades and days trade but not track them.

Stay tuned for additional announcements and changes.

Happy Trading !
